

**BRIAN GOEMMER** has been in the wireless telecommunications sector for over 24 years and is currently the President of Allnet Insights & Analytics (Jan 2011-Present), an independent wireless spectrum research and consulting firm. Allnet Insights & Analytics is the leading authority on North American wireless spectrum ownership in the Mobile Carrier (600MHz to 4.2GHz) and Millimeter Wave (12.2GHz to 47GHz) frequency bands. Allnet Insights' tools and reports provide detailed spectrum ownership assignment information for each US County and Canadian Tier 4 service area and comprehensive market and country spectrum depth and MHz-POPs information. Mr. Goemmer's consulting work has a specific focus on spectrum, wireless technology, 4G/5G engineering and design, 4G/5G network construction, and the applications/services that drive 4G/5G usage and adoption.

Mr. Goemmer was previously Director of Spectrum Operations at Clearwire Communications, now part of Sprint. His primary responsibility was to lead management of Clearwire's radio spectrum portfolio and the contractual and regulatory obligations for each spectrum licensee or call sign. In addition, Mr. Goemmer provided 4G technology demonstrations and network site tours for investors, analysts, and high profile guests.
